**IN THE UNITED STATES PATENT & TRADEMARK OFFICE**

IN RE REISSUE OF U.S. PATENT 5,983,225 :

PATENTEE: OLE JØRGEN ANFINDSEN :

SERIAL NO.: 09/726,560 :

FILED: December 1, 2000 :

FOR: PARAMETERIZED LOCK MANAGEMENT SYSTEM AND METHOD FOR  
CONDITIONAL CONFLICT SERIALIZABILITY OF TRANSACTIONS

**SUPPLEMENTAL REISSUE DECLARATION**

ASSISTANT COMMISSIONER FOR PATENTS  
WASHINGTON, D.C. 20231

SIR:

I, Ole Jørgen Anfinsen, declare that:

1. I am a citizen of Norway and have a residence and post office address stated below next to my name.
2. I have reviewed and understood the contents of the specification filed on December 1, 2000, including the amended and unamended claims of the above-identified reissue application, and also including added claims 10-44.
3. I verily believe myself to be the original, first and sole inventor of the invention described and claimed in U.S. Letters Patent 5,983,225 for a PARAMETERIZED LOCK MANAGEMENT SYSTEM AND METHOD FOR CONDITIONAL CONFLICT SERIALIZABILITY OF TRANSACTIONS granted November 9, 1999 to myself and in the foregoing specification for which invention I solicit a reissue patent including added Claims 10-44.

4. The entire title to said U.S. Letters Patent 5,983,225 is vested in TELENOR AS, Oslo, Norway.

5. I do not know and do not believe that my invention as disclosed and claimed in the present reissue application was ever known or ever used in the United States of America before the invention thereof by myself.

6. I acknowledge the duty to disclose to the United States Patent and Trademark Office all information known to us to be material to patentability as defined in 37 C.F.R. §1.56.

7. I believe that the original U.S. Letters Patent 5,983,225 to be wholly or partly inoperative or invalid, by reason of the patentee claiming more or less than he had a right to claim in the patent.

8. At least one error upon which reissue is based is an antecedent basis error in original claim 9. Original claim 9 claimed a "system" but depends from claim 8 which recites a "computer program product." That is "how" the at least one error renders the original patent wholly or partly inoperative or invalid.

9. All errors being corrected in the present reissue application arose without any deceptive intent on my part or on the part of the assignee.

10. I believe that all claims in this application find full support in the original specification.

11. I declare further that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of this application or any patent issuing thereon.
